REGINA

ALL-AMERICA GLADS

APPLEBLOSSOM (Fischer-Baerman). White with rose-pink edging—a real beauty. An easy grower that performs excellently with only average culture.

CARIBBEAN (Fischer-Baerman). Unusual combination of rare blue-violet petals handsomely embellished by a rich, deep violet throat and a small cream spear. Its refreshing beauty will make it a sure-fire winner.

EMPEROR (Fischer-Baerman). A magnificent royal purple with light throat. Rich distinctive colors. Makes majestic spikes that grow very tall. Seven to eight open florets. A marvelous glad.

JOYOUS (Flad 1959). An air of quiet elegance distinguishes this rich velvety, deep rose glad. Eight or more large florets open at a time on a tall 20 bud spike.

MAYTIME (Fischer-Baerman). A gracefully ruffled deep pure pink with contrasty large white throat. A robust grower, it readily opens 8-10 florets on five-foot spikes. Produces a long ribbon of color with a silky taffeta sheen.

ROYAL STEWART (Pommert). The lightly ruffled florets are 5 inches in diameter and are of good substance. They are a clear light red and the long flowerheads frequently carry up to 12 open flowers. Outstanding exhibition variety.

SPARKLER (Fischer 1959). As graceful and colorful as a butterfly. The florets are ruffled, a lovely clear yellow shading somewhat deeper around the bright red lips, medium size.

QUALITY GLADIOLUS

SIX OUTSTANDING NEW GLADS FOR 1959

Explanatory Note: Ralph Baerman, formerly associated with Noweta Gardens and hybridizer of four of the first seven All-America glads, has done his plant breeding at Salem, Oregon, the past four summers in association with Redwood Nurseries and Weeks' Gladiolus Gardens. The first six Baerman originations of this new series, all of them outstanding, are being offered the glad world jointly by Majeski and Weeks in the spring of 1959.

SUNBURST

EIGHTH WONDER

TOPAZ

CHEMAWA

SNOWSTORM

VIOLET QUEEN

SUNBURST (432) (Baerman-Majeski 1959) (Royal Stewart x Pactolus). Early. A tricolor novelty that is so brilliant, so unforgettably different, that it will remain permanently etched upon the memory. Sunburst is a gorgeously ruffled deep salmon of almost 500 size with massive, stretchy flowerheads and a flashy, fiery explosion blotch of velvety scarlet and deep canary yellow so vivid it fairly scintillates. Put this top-notch on your "must have" list and avoid future regrets by placing your order while stock is still available.

Prices: \$2.00 each. One bulb and 10 bulblets \$4.00. No bulblets sold separately. Grower's Unit: 10 bulbs and 50 bulblets \$25.00. Due to very limited stocks, we reserve the right to supply bulbs of sizes No. 1 to No. 4. (Our choice.)

EIGHTH WONDER (470) (Baerman-Majeski 1959) (Emperor x Unknown). Very early. Color soft light purple with a large cream throat. Makes a ribbony spike with extraordinarily flat-open, recurved blooms. This is a wonderful early cut-flower variety with fine whip-like bamboo stems. It is the sort of glad which people say: "A single spike makes a bouquet." If cut-flowers mean anything at all to you, especially early cuts, don't pass up this beauty. Eighth Wonder is destined for all-around popularity. Produces better than 75% large bulbs from bulblets. Only blt. grown large bulbs available.

Prices: Same as for Sunburst.

TOPAZ (412) (Baerman-Weeks 1959) (Golden Sunshine x Prospector). Mid-season. Although practically identical with Gold in color, it usually has a 50% better bud count (up to 20-22) with long stretchy heads with 8-9 open blooms. This is a supremely beautiful variety. Because of its intense ruffling, Topaz displays such a filigree of highlights that it sparkles like a many-faceted golden jewel. For the up-to-date collector and grower Topaz is indispensable.

Prices: Same as for Sunburst.

CHEMAWA (484) (Baerman-Weeks 1959) (Innocence x Southern Belle). Mid-season. This appears to us to be the most beautiful smoky we have ever seen, surpassing such classics of yesterday as Zuni and Sandman, but unlike them being an excellent propagator and germinator with exuberant health. Chemawa has the smoothest color in a smoky, being a soft suede-textured old-rose with a silvery sheen, blending to a clean ivory throat. The softly ruffled blooms, on long stretchy spikes, are totally free from flecking. Chemawa is tops in smokies. Because this is a 1955 seedling we can supply it in more generous quantities than the 1956 seedlings.

Prices: \$1.00 each. One bulb and 10 bulblets \$2.00. Grower's Unit: 10 bulbs and 50 bulblets \$12.00.

SNOWSTORM (400) (Baerman-Majeski 1959) (Innocence x Southern Belle). Midseason. It takes a yellow glow of a lighted window to bring out the whiteness of a snowy landscape, and the touch of amber in the throat of this immaculate glad similarly enhances its exquisite purity. Snowstorm will readily open 8 round waxy, beautifully ruffled florets of heavy substance and 400 size on spikes nearly five feet tall. We counted 25 buds on its formal spire-like spikes last summer.

Prices: Same as for Sunburst.

VIOLET QUEEN (478) (Baerman-Weeks 1959) (Admiral x Caribbean). Very early. Here is a rugged, healthy addition to the thinly-populated deep violet class, whose cool richness is so important in giving variety to the gladiolus colorama. Violet Queen is almost 500 size and is a splendid spike maker and propagator. If you enjoy the color of the ever-popular Elk's Pride petunia, you will welcome a glad of similar color and of ideal growing habits. Violet Queen is similar to Admiral but much larger and earlier.

Prices: Same as for Sunburst.
